Attachments: 146.82a_Narrative w CBI_CES Mendota_pw protected.pdf

Dear Calvin,

Per your guidance, please find attached a copy of the Narrative containing confidential business information (CBI) for our Class VI Pre-Construction permit application for the Mendota site. This file completes our application submitted in February via the online GS Data Tool site. Please treat this as confidential.

To maintain security, the file has been secured using a password that must be entered to open/view the document. I will call you shortly with the password. I will call the number listed in your email below (415-972-3262).

Thank you for your continued support and as always, let me know if you have any questions. I can be reached on my cell phone (number below).

Best Regards,
-Rebecca

Hi Calvin,

Thank you for the prompt response.

I am OK with the method you propose of providing EPA Region 9 with a password protected file. I will generate a secure Adobe file of the Mendota Narrative containing confidential business information (CBI) and send it over shortly. I can then call you with the password to access the secure file. Note with this method, as I mentioned in my other email, you will have to use the password each time you wish to open/access the file.

Look for an email with attachment shortly.

Thanks again,
-Rebecca

Great. Thanks for working with Cadmus and the State Water Board on this matter, Rebecca.

David and I think that we can use this method as an alternative to receive the information.

Please email me the information as an encrypted file (preferably in a password-protected Adobe PDF so that I don't have to ask our IT department for a permission to download the 7zip software), and then call me with the password of the file.

Thank you for your patience!

Calvin
